Course Outline

The Food & Hospitality course at St Patrick’s Technical College provides students with technical and practical skills and knowledge in readiness for employment in a dynamic and fast-paced industry. St Patrick’s is the only school in South Australia to be auspiced by tafeSA to deliver competencies to Certificate III level. Over a two year period students undertake training in an exciting, social and team environment, which prepares them for a variety of jobs in restaurants, resorts, cafes and hotels. The course develops students’ practical skills underpinned by food safety, hygiene, methods of cookery, appetisers, salads and a wide range of other contemporary food combinations.

Training is delivered in our state-of-the-art kitchen by our own qualified chef with over twenty years’ industry experience which includes the running of an award winning catering business. Students study a unique SACE course, developed at St Patrick’s Technical College for the hospitality industry, and prevocational competencies from Certificate I & II in Kitchen Operations and Certificate III in Hospitality (Commercial Cookery) plus Certificate II in Retail Studies.

All theory and practical subjects are tailored to be relevant and experiential where students achieve high levels of success.

Theory subjects
- Trade Mathematics
- English for the Workplace
- Food Science

Pre-vocational competencies
- Certificate I & II in Kitchen Operations
- Certificate III in Hospitality (Commercial Cookery)
- Certificate II in Retail Studies

A full list of the competencies delivered is available on the College website.

This specialist SACE + Australian Quality Training Framework Certificate (AQTF) course prepares students to move into a full apprenticeship program should they be successful in gaining an Australian School-based Apprenticeship.

Workplace Practices

Workplace Practices gives students the skills necessary to work effectively in teams and allows them to gain a detailed understanding of their chosen trade. Career planning, research, employability, self-evaluation and goal setting skills are extensively covered in this subject along with worker rights and responsibilities.

The course includes:
- Skills for Life

Work Experience

Work Experience is an integral part of the College’s Workplace Practices program. It provides an opportunity for students to:
- experience their trade choice;
- develop skills for the workplace; and
- gain feedback from employers about their general employability skills such as attitude, work ethic, punctuality, problem solving abilities, communication and teamwork.

Campus-based students undertake a minimum of six weeks Work Experience per year.

Australian School-based Apprenticeship (ASbA)

An Australian School-based Apprenticeship (ASbA) is a mix of academic, vocational education and training, and paid employment. An ASbA provides students with employment skills, hands-on experience and is an integral part of their school program.

It is important to note that the ASbAs at St Patrick’s Technical College are unique.

Due to the flexibility of our timetable, St Patrick’s students can spend up to 34 weeks of Year 12 full-time at their employer enabling them to complete the first year of their apprenticeship while completing the requirements of the SACE.

The ASBA then continues as a full-time apprenticeship automatically upon graduation.

Career Pathways

This course prepares students for a career in restaurants, resorts, cafes and hotels.

A comprehensive list of career opportunities can be found on the College website.

St Patrick’s Technical College is part of an extensive network of industry associations, employers, training providers and group training organisations and is committed to working with families to present opportunities for students to start a trade career.

Enrolment information

Please contact us for further course information or for an enrolment package.

St Patrick’s Technical College combines a unique trade focused SACE with award winning trade and apprenticeship training for Year 11 & 12 students.

At St Patrick’s Technical College, trade training is not just part of what we do - IT’S ALL THAT WE DO!

St Patrick’s offers trade pathways in Automotive, Building & Construction, Electrotechnology, Food & Hospitality, Hair & Beauty, Metals & Engineering and Plumbing. The College’s Advanced Technology Unit offers trade and tertiary pathways in Applied Engineering.
